

# Product Regulatory Profile Sheet

FOR PAPER PRODUCTS MANUFACTURED IN NORTH AMERICA.

## Product Stewardship

### U.S. REGULATIONS OF INTEREST

#### • Food Allergen Labeling And Consumer Protection Act of 2004 (FALCPA)

Billerud products do not intentionally contain any of the eight foods or food groups recognized by FALCPA as major food allergens. These include milk, eggs, fish (e.g., bass, flounder, cod), Crustacean shellfish (e.g., crab, lobster, shrimp), tree nuts (e.g., almonds, walnuts, pecans), peanuts, wheat, and soybeans.

#### • Dodd-Frank Wall Street Reform and Consumer Protection Act

Conflict minerals, as defined in the Dodd-Frank Act, are not intentionally used in the manufacture of Billerud products, nor are they necessary to the functionality of these products.

#### • Consumer Product Safety Improvement Act of 2008 (CPSIA) and 16 CFR part 1307

Lead and phthalates are not intentionally used in the manufacture of Billerud products. Independent testing of representative samples confirms that these products meet the requirements of the CPSIA, specifically they contain less than 100 ppm by weight of lead and less than 0.1% of specified phthalates (DEHP, DBP, BBP, DINP, DIBP, DPENP, DHEXP, and DCHP).

#### • CONEG and Toxics in Packaging Clearinghouse (TPCH)

Lead, mercury, cadmium and hexavalent chromium are not intentionally used in the manufacture of Billerud products. Independent testing of representative samples confirms that the sum of the incidental levels of these metals does not exceed 100 ppm by weight.

### CHEMICALS OF INTEREST

The chemicals listed below are not intentionally used in the manufacture of Billerud products:

- Asbestos
- Bisphenol A (BPA)
- Brominated flame retardants
- Colophony
- Dimethyl fumarate (DMF)
- Halogenated flame retardants
- Heavy metals
- Natural rubber latex
- Organotin
- Parabens
- Pentachlorophenols
- Polychlorinated biphenyls
- Polycyclic aromatic hydrocarbons (PAHs)
- Vinyl chloride polymer (PVC)

### BLEACHING PROCESS

Virgin kraft pulps used in the manufacture of Billerud products are bleached using an elemental chlorine-free (ECF) process. Recycled fiber derived from post-consumer waste is processed chlorine-free (PCF).

## Sustainability

### U.S. LACEY ACT

All of the virgin fiber used in Billerud products originates from North American forests. Billerud maintains multiple third-party certifications (Forest Stewardship Council®, (FSC®) Program for the Endorsement of Forest Certification (PEFC) and the Sustainable Forestry Initiative® (SFI®)). These certifications provide assurance that Billerud products are manufactured from fiber that has been legally harvested and procured from well-managed forests.
